- **Best Practices:** Salesforce best practices, coding standards, Governor Limits

PROFESSIONAL EXPERIENCE

Salesforce Developer | Tata Consultancy Services, Hyderabad, India

Project Domain: Banking Services | APR 2025– Present

Worked on an agent-assisted servicing platform to manage service requests for banking products such as credit cards, personal loans, and home loans. The solution enables agents to create, process, and track service requests with real-time service status updates and seamless communication with downstream servicing systems.

Key Responsibilities:

- Optimized Apex Triggers across multiple objects, achieving a 20% performance increase through efficient SOQL queries and bulkification techniques.
- Developed Batch Apex classes to handle large data volumes, improving processing efficiency and ensuring data integrity.

- Automated business processes using Salesforce Flows, reducing manual effort and improving operational efficiency and productivity.
- Customized Lightning Web Components (LWC) to enhance user experience, resulting in higher user engagement and satisfaction.
- Executed Salesforce Configuration and Customization for complex business processes, ensuring solution scalability and alignment with best practices.
- Created and maintained Test Classes to meet deployment standards and ensure robust functionality.
- Strengthened Data Security through secure data modeling, access control configurations, and custom security settings.
- Actively participated in Agile Sprint Planning and User Story Grooming, helping refine backlog and prioritize deliverables.
- Conducted Quality Assurance checks on software products to ensure alignment with client standards and adherence to project timelines.

CERTIFICATIONS

- Salesforce Certified Platform Administrator
- Salesforce Certified Agentforce Specialist

EDUCATION

Bachelor of Technology in Computer Science | CGPA:8.77/10

Sagi Ramakrishnam Raju Engineering College, Bhimavaram, Andhra Pradesh | 2020-2024

SOFT SKILLS

- **Teamwork:** Proven track record of collaboration within Agile teams to achieve project goals.
- **Client-Focused Approach:** Committed to delivering high-quality Salesforce solutions that align with business and user requirements.
- **Time Management:** Successfully manage timelines, meeting all project deadlines.
- **Adaptability:** Strong ability to adapt to changing client requirements.
- **Initiative:** Demonstrated self-motivation in learning and applying new Salesforce technologies.

ACHIEVEMENTS

- Awarded "**Warriors of Time**" for exceptional performance and dedication to client success.
- Recognized with "**Bright Beginner**" Award for strong work ethic, technical proficiency, and timely completion of tasks.
